EDUCATION

NMIMS, School of Engineering

Bachelor of Technology in Information Technology (B.Tech IT)

2023 – 2027 Expected

CGPA: 3.26/4.00

SKILLS & INTERESTS

- **Programming Languages:** Python, JavaScript, CSS, HTML, Java, SQL, Rstudio, Base SAS, C++.
- **Frameworks/Tools:** LangChain, FAISS, ReactJS, TailwindCSS, AstroJS, Figma, DaVinci Resolve (Video editing).
- **Operating Systems:** Windows

WORK EXPERIENCE

NUCFDC

AI Development Intern

Mumbai, India

May 2025 – July 2025

- **Built an internal RAG-based document summarization chatbot** using GPT-4o, FAISS, and LangChain, enabling efficient retrieval and real-time responses.
- **Streamlined internal research workflows** by auto-summarizing **regulatory** documents like RBI guidelines.
- **Planned transition to an open-source Large Language Model** for long-term cost optimization and data privacy.

MUNSociety MPSTME

Head of Department, Tech

Mumbai, India

June 2024 – Present

- Led the development of MumbaiMUN's official website with freshman juniors under Tech Mentor guidance.
- Oversaw architecture, code reviews, and modular task assignments for a scalable, responsive build.
- Mentored juniors in good web development best practices, version control, and dynamic content integration.

PROJECTS

RAG Based Chatbot for RBI Documents

May 2025 – July 2025

- Developed an internal chatbot tool leveraging Retrieval-Augmented Generation (RAG) to summarize and answer queries from lengthy documents.
- Integrated OpenAI's language models with a custom document parsing pipeline for fast, context-aware responses.
- Enabled team members to efficiently access key information from company reports, improving internal knowledge workflows.

AstroJS based website for MumbaiMUN 2025

June 2024 – February 2025

- Leading the development of a brand-new website using Astro.js and Tailwind CSS for improved speed, scalability, and modern design.
- Mentoring junior executives while managing component structure, routing, and responsive layouts.
- Coordinating with leadership and design teams to align features with event goals and user experience standards.

ReactJS based website for MumbaiMUN 2023

September 2023 – June 2024

- Built a responsive and dynamic, interactive website using React.js and Tailwind CSS to show event details, committees, and registration.
- Collaborated with content and design teams to deliver a cohesive and branded user experience.

Movie Success Predictor – ML-based Desktop App

Mar 2025 – Apr 2025

- Developed a machine learning model to predict movie success using features like genre, budget, and cast popularity.
- Integrated the model into a user-friendly desktop GUI with real-time prediction using Tkinter.
- Focused on clean UI/UX and robust input handling to ensure accessibility and reliability.

EXTRACURRICULARS

- **Technical Head, Social Conclave 2025** – Led the development of the official event website, collaborating with designers and content teams to deliver a responsive platform featuring schedules, speakers, and registrations.
- **Technical Executive, TAQNEEQ Techfest 2023–24** – Contributed to frontend development of the fest's website, enhancing UI and responsiveness under senior mentorship as part of the web team.
